Universal folio case with suction cups, the latest for your 5 inches Smartphone

Innovative design that incorporates a suction pad which is fixed by suction to mobile .
Suction pads grip the workpiece fast and precisely due to their flat shape and small volume.
This case universal Folio is an excellent alternative protection for phone models that do not have specific cases.
The suction system makes a vacuum effect when pressed against the smooth surface of Smartphone offering high grip.
The clear frontal window lets you see the time and applications that have active when the phone is hibernating.
The clear frontal window lets you see the time and applications that have active when the phone is hibernating.
The universal folio sucker case allows you to freely take pictures through the back invisible window hides part. Allowing full access to the smartphone camera.
In addition, you can access all the charging connectors, audio, camera, etc. . without removing case

Offers excellent protection while your device remains fully operational.
